

HOME EQUITY EARLY DISCLOSURE
IMPORTANT TERMS OF OUR HOME EQUITY LINE OF CREDIT PLAN

This disclosure contains important information about our Home Equity Line of Credit Plan. You should read it carefully and keep a copy for your records.

At the conclusion of the draw period your payment will be recalculated and a payoff period will be established based on your outstanding balance, as described in the following table:

AVAILABILITY OF TERMS: All of the terms described below are subject to change. If these terms change (other than the annual percentage rate) and you decide, as a result, not to enter into an agreement with us, you are entitled to a refund of any fees that you pay to us or anyone else in connection with your application.

Table with 2 columns: Range of Balances and Payoff Period. Rows include: Up To - \$5,000.00 (60 Monthly Payments), \$5,000.01 - \$15,000.00 (96 Monthly Payments), \$15,000.01 - \$25,000.00 (120 Monthly Payments), \$25,000.01 - And above (144 Monthly Payments)

SECURITY INTEREST: We will take a security interest in your home. You could lose your home if you do not meet the obligations in your agreement with us.

POSSIBLE ACTIONS: We can terminate your line, require you to pay us the entire outstanding balance in one payment, and charge you certain fees, if (1) you engage in fraud or material misrepresentation in connection with the plan; (2) you do not meet the repayment terms of this plan, or (3) your action or inaction adversely affects the collateral or our rights in the collateral.

Your payment will be set to repay the balance, at the current annual percentage rate, within the payoff period. Your payment will be rounded up to the nearest dollar. Your payment will also change if the annual percentage rate increases or decreases. Each time the annual percentage rate changes, we will adjust your payment to repay the balance within the original payoff period. All payments during both the draw and repayment periods will include any amounts past due and any amount by which you have exceeded your credit limit, and all other charges. Your payment will never be less than the smaller of \$100.00, or the full amount that you owe.

We can refuse to make additional extensions of credit or reduce your credit limit if (1) any reasons mentioned above exist; (2) the value of the dwelling securing the line declines significantly below its appraised value for purposes of the line; (3) we reasonably believe that you will not be able to meet the repayment requirements due to a material change in your financial circumstances; (4) you are in default of a material obligation of the agreement; (5) government action prevents us from imposing the annual percentage rate provided for in the agreement; (6) the priority of our security interest is adversely affected by government action to the extent that the value of the security interest is less than 120 percent of the credit line; (7) a regulatory agency has notified us that continued advances would constitute an unsafe and unsound business practice, or (8) the maximum annual percentage rate is reached.

NEGATIVE AMORTIZATION: Under some circumstances during the repayment period your payment will not cover the finance charges (interest) that accrue and "negative amortization" will occur. Negative amortization will increase the amount that you owe us and reduce the equity in your home.

MINIMUM PAYMENT REQUIREMENTS: You can obtain credit advances for 8 years. This period is called the "draw period." At our option, we may renew or extend the draw period. After the draw period ends the repayment period will begin. The length of the repayment period will depend on the balance at the time of the last advance you obtain before the draw period ends. You will be required to make monthly payments during both the draw and repayment periods.

MINIMUM PAYMENT EXAMPLE: If you made only the minimum monthly payment and took no other credit advances it would take 9 years 9 months to pay off a credit advance of \$10,000 at an ANNUAL PERCENTAGE RATE of 3.25%. During that period, you would make 96 payments of \$100.00, followed by 20 payments of \$100.00 and one (1) final payment of \$78.10.

During the draw period your payment will be 1% of the outstanding balance each month, or \$100.00, whichever is greater. Your payment will be rounded up to the nearest dollar. If the interest rate increases during the draw period you may have additional payments until the end of the draw period.

FEES AND CHARGES: In order to open, use and maintain a line of credit plan, you must pay the following fees to us:

Annual Fee: \$25.00 (Due on each anniversary date if your loan balance is below \$5,000.00)

PROPERTY INSURANCE: You must carry insurance on the property that secures this plan. If the property is located in a Special Flood Hazard Area we will require you to obtain flood insurance if it is available.

REFUNDABILITY OF FEES: If you decide not to enter into this plan within three business days of receiving this disclosure and the home equity brochure, you are entitled to a refund of any fee you may have already paid.

**TAX DEDUCTIBILITY:** You should consult a tax advisor regarding the deductibility of interest and charges for the plan.

**VARIABLE RATE FEATURE:** This plan has a variable rate feature. The annual percentage rate (corresponding to the periodic rate) and the number of payments during the draw period and the minimum payment during the repayment period may change as a result. The annual percentage rate includes only interest and no other costs.

The annual percentage rate is based on the value of an index. The index is the Prime Rate published in the Money Rates column of the *Wall Street Journal*. When a range of rates has been published the highest rate will be used. We will use the most recent index value available to us as of the date of any annual percentage rate adjustment.

To determine the annual percentage rate that will apply to your account, we add a margin to the value of the Index. Ask us for the current index value, margin and annual percentage rate. After you open a plan, rate information will be provided on periodic statements that we send you.

**RATE CHANGES:** The annual percentage rate can change quarterly on the first day of January, April, July and October. The rate cannot increase or decrease more than 2.0 percentage points in any one year period. The maximum **ANNUAL PERCENTAGE RATE** that can apply is 18.0% or the maximum permitted by law, whichever is less.

**MAXIMUM RATE AND PAYMENT EXAMPLES:** During the draw period, if you had an outstanding balance of \$10,000, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 18.0% would be \$100.00. This annual percentage rate could be reached at the time of the 85th payment.

During the repayment period, if you had an outstanding balance of \$10,000, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 18.0% would be \$198.00. This annual percentage rate could be reached at the time of the 85th payment.

**HISTORICAL EXAMPLE:** The following table shows how the annual percentage rate and the minimum payments for a single \$10,000 credit advance would have changed based on changes in the index over the past 15 years. The index values are from the last business day of July of each year. While only one payment per year is shown, payments may have varied during each year.

The table assumes that no additional credit advances were taken, that only the minimum payments were made, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.
